DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 1/24/2006 has been entered.

Drawings

2. The drawings filed 3/25/2004 are approved by the examiner.

Allowable Subject Matter

3. Claims 1-9 are allowed.

4. The following is an examiner's statement of reasons for allowance: Applicant's arguments are substantially persuasive, especially with respect to the structural differences between the Orthcutt and Nihei references and . Specifically, applicant's that Orcutt and Nihei do not disclose the linear guide structure of the shaft and guide groove is persuasive.¹ Additionally, applicant's argument that the combination of Orcutt and Nihei would not result in a linear guide structure in which swing motion is possible is a somewhat incomplete statement, but persuasive since the claim structure requires a

dual rotational center (i.e., the first and second guide grooves that are rotationally provided on the stand) which moves the bonding head (which is fastened to the first and second actuator through the members and arms). This structure and associated function is not structurally creatable through any valid combination of Orcutt and Nihei.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

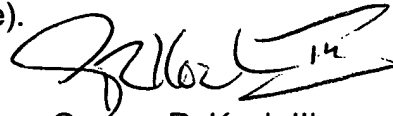

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George R. Koch III whose telephone number is (571) 272-1230. The examiner can normally be reached on M-F 9-5.

¹ Applicant also argues that Orcutt and Nihei do not disclose the guide, but this element is not required for claim 1. This element is, however, present in both claims 2 and 4.
